Large Marbro Lamp Co. 1960's Cut Crystal Baluster-form Lamp with Gilt-metal Mounts

1960's

The Marbro Lamp Company was established by Morris Markoff and his brother (Mar-bro) after World War II in the garment district of Los Angeles. While specializing in a wide selection of antiques and decorative accessories, they are best known for their high quality lamps. Lamp parts were sourced from all over the world, but always assembled in their LA shop; this fine example of a thickly modeled faceted crystal lamp with gilt-metal mounts; no chips or cracks; rewired
