Three Brown Glazed Square Tiles Depicting Frogs; Signed Ontko

1980s

each handcrafted whimsical tile depicting expressive frogs amidst long grasses; all in a mottled brown glaze; two tiles signed 'Ontko' (Janet Ontko, California); good vintage condition with no breaks. Janet Ontko is inspired by the simplicity and style of the Craftsman Movement. The honesty of the materials, the look of the clay, the touch of the potter, and the return to the craft tradition compelled Janet to develop her own signature style. Her line of award-winning tiles and sculptures incorporates her love of gardening and nature.
